

SPARTA B MTM

LARGE FLOOD LIGHTS BACK OPENING

The SPARTA B MTM Range is a robust pair of products in two sizes for higher light output from 200W to 500W and with separate optic and control gear compartments. The control gear compartment is back opening eliminating the need to access the optic compartment.

The SPARTA B MTM is suitable for a wide range of outdoor applications, on high masts, large car parks, airports, railway yards, docks and ports, container terminals, sports grounds etc.

Input Power	L	Size W (mm)	H	Rated Voltage (V)	Power Factor	ATHD	Input Frequency	Efficacy* (Lm/W)	CCT**	CRI
SPARTA B MTM-200W	399	299	79	240	>0.95	<10%	50Hz	150	CW	70

*For CW Only.
 **WW: 3000K, NW: 4000K, CW: 5700K. others CCTs also available on request.
 Image may be changed as per wattage.
