

LUMANTIX-P

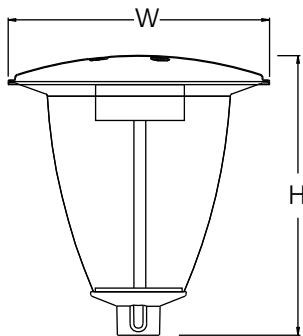

Design Licenced By
TRILUX

Decorative post-top luminaire with classic mushroom form.

Its MLT version (Multi-Lens Technology), consisting of highly efficient UV and temperature-resistant lens systems in 4-fold configuration with symmetric wide light intensity distribution for illuminating paths, especially cycle paths. Further beam characteristics are available for flexible adaptation to customer-specific lighting tasks.

Luminaire body of cast aluminium and canopy of corrosion-resistant aluminium. Diffusers of highly impact-resistant clear PMMA.
